

Returning to School

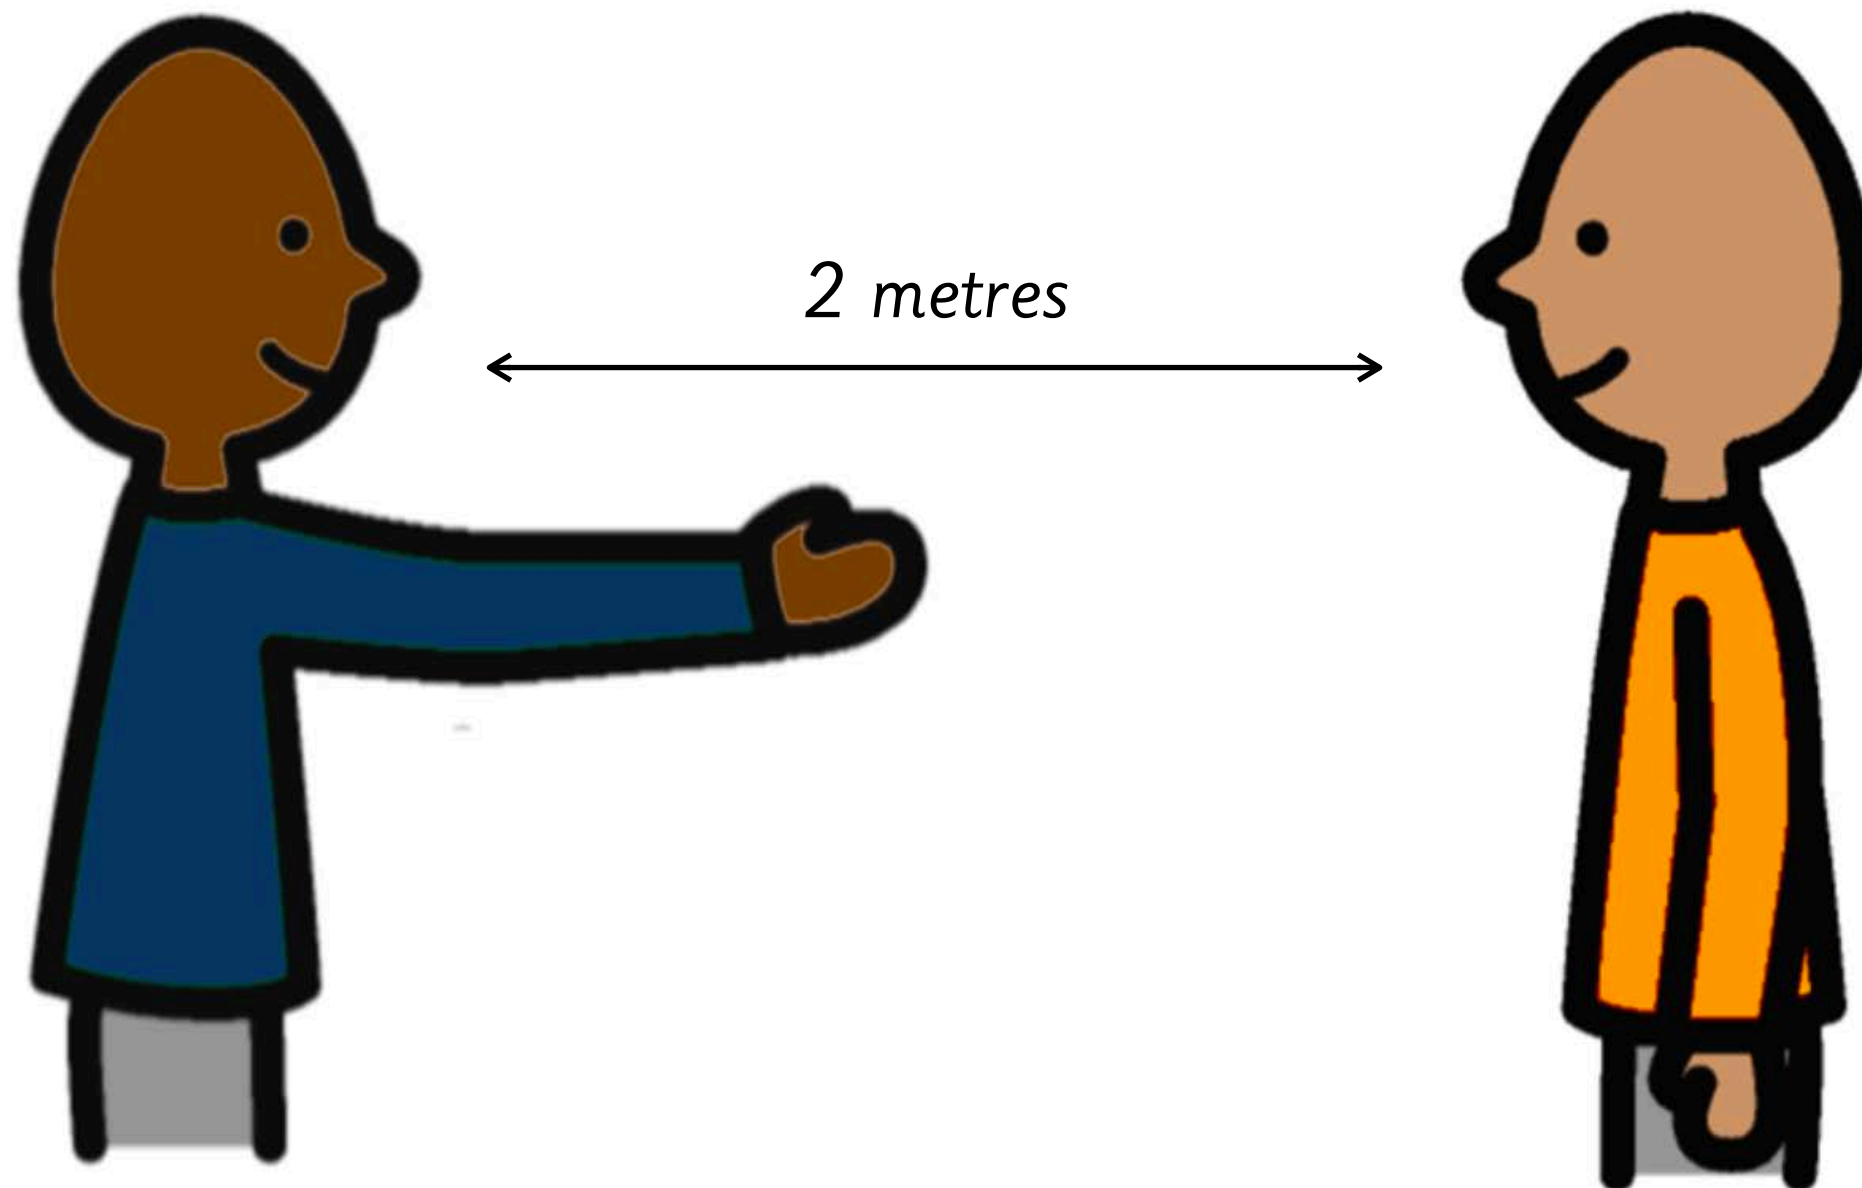

We have been told it is safe for everyone to come back to school soon.

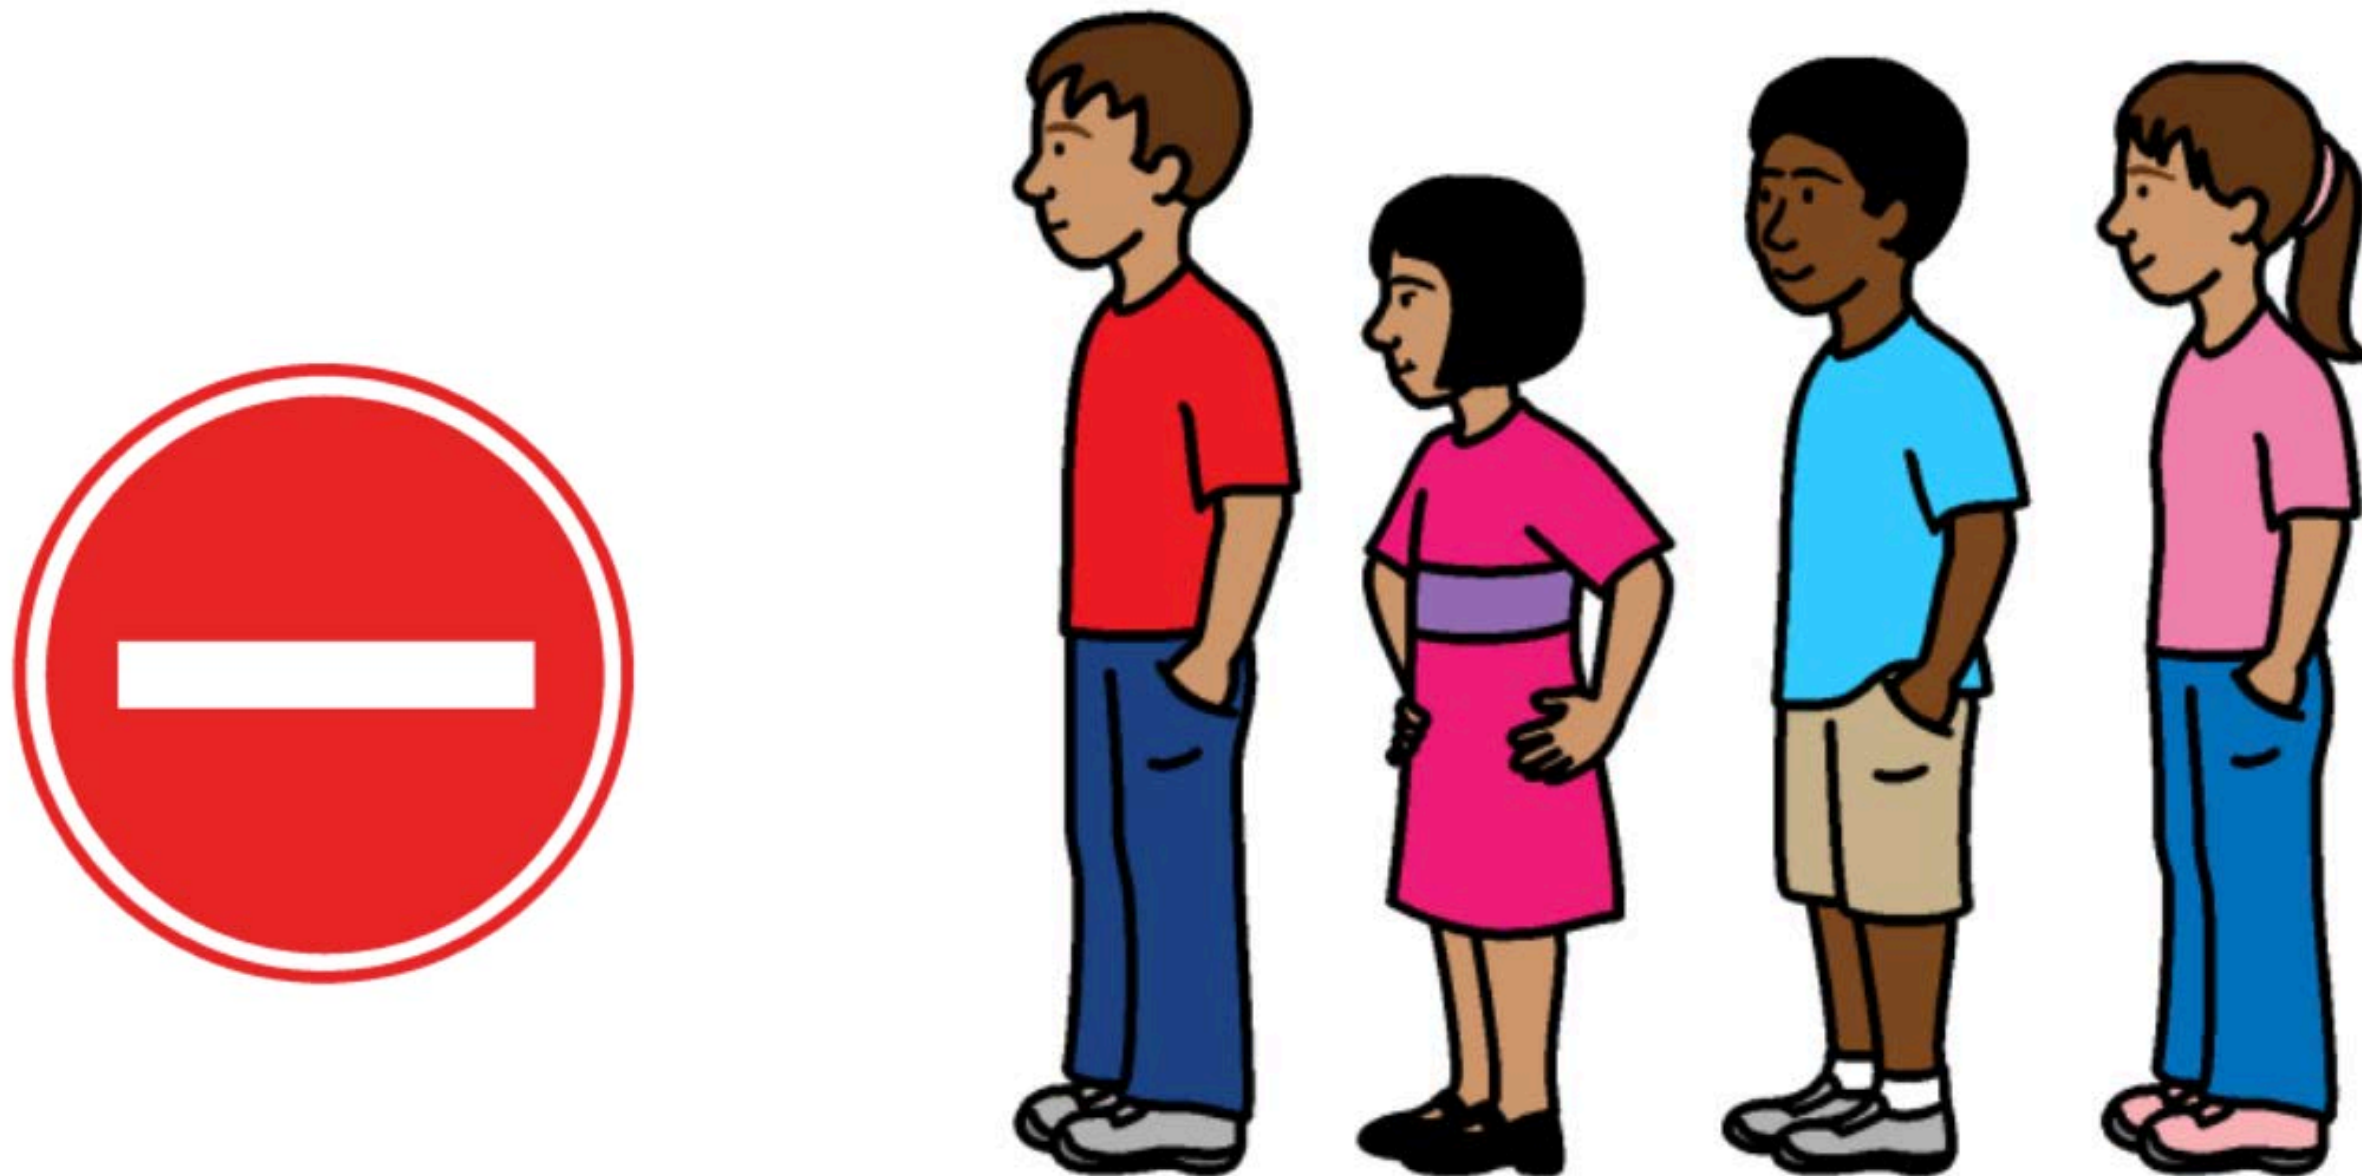

You might feel excited, you might feel a little bit nervous.

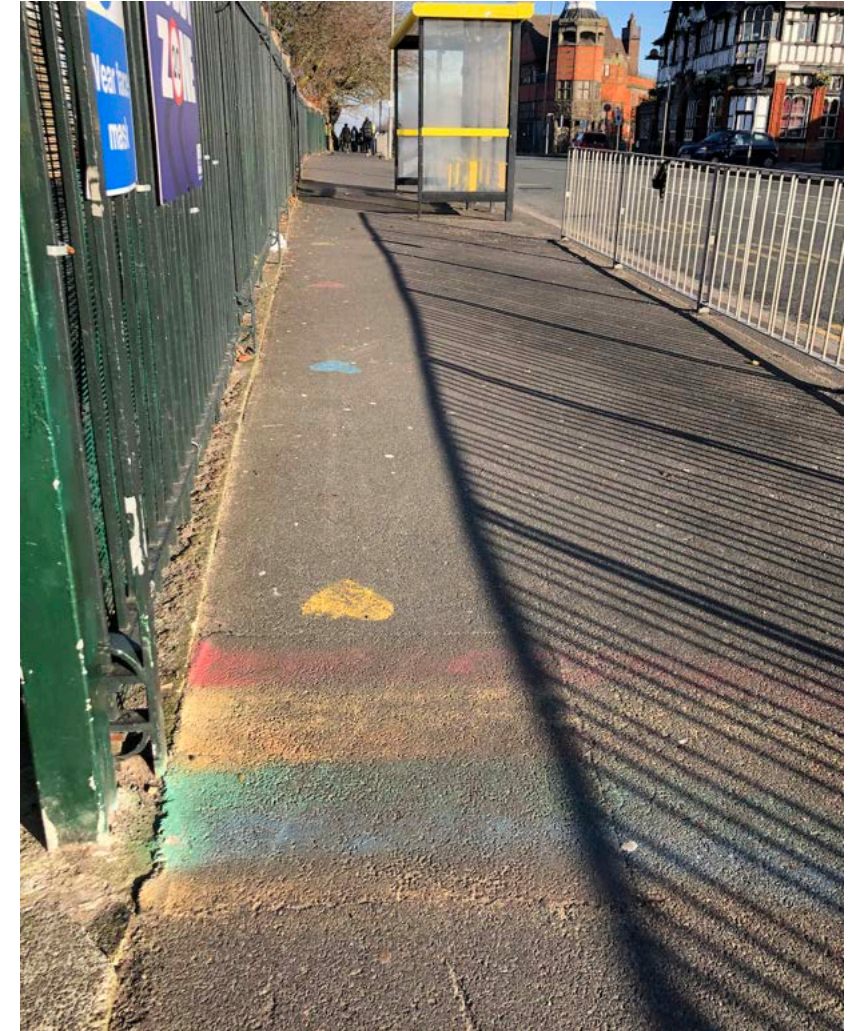

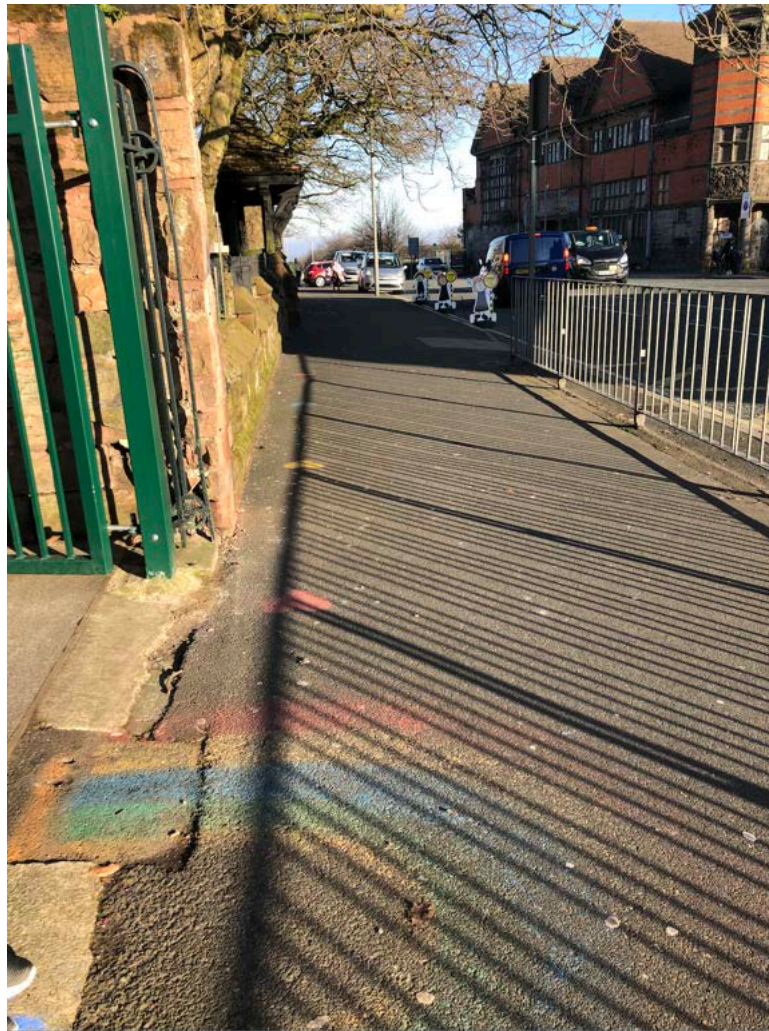

You might have lots of different feelings and this is ok.

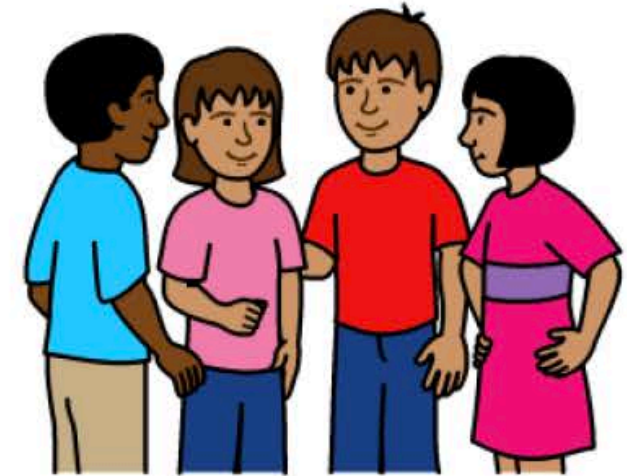

Social distancing is when you stay 2 metres away from other people. We will keep doing this in school where we can especially when coming to and from school.

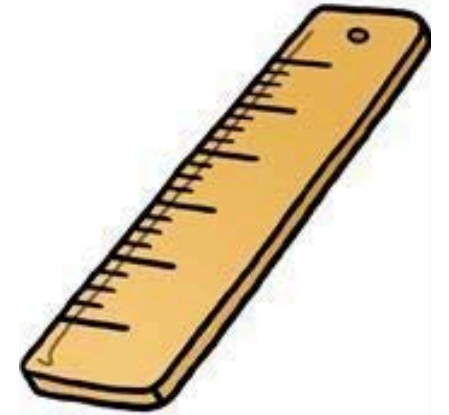

*We will still line up to come into school.
Parents/carers dropping me off cannot come into
school or onto the playground.*

You will still line up at your class gate, you must stand on the markers when waiting to come in following social distancing rules.

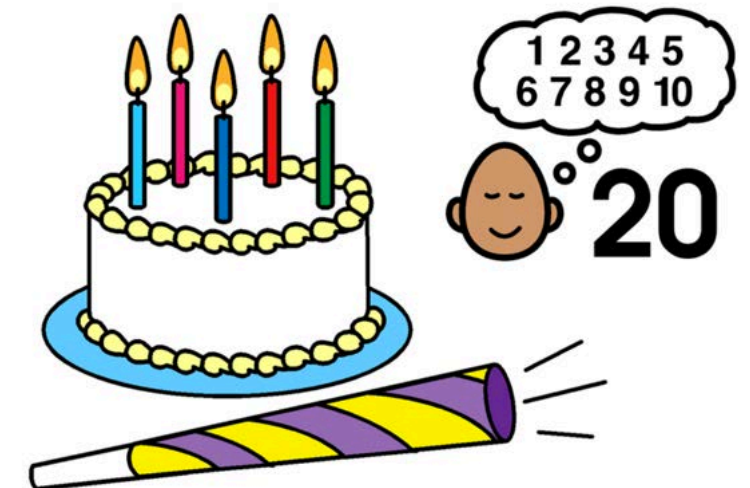

We will be in the same classes with our teachers and friends.

In class we will work at our desks and have our own equipment to use.

We can sing 'happy birthday' twice to get to 20 seconds.

We will use hand sanitiser or wash our hands often throughout the day for 20 seconds.

If I need to cough I will cough into my arm.

I will get tissues when I need them.

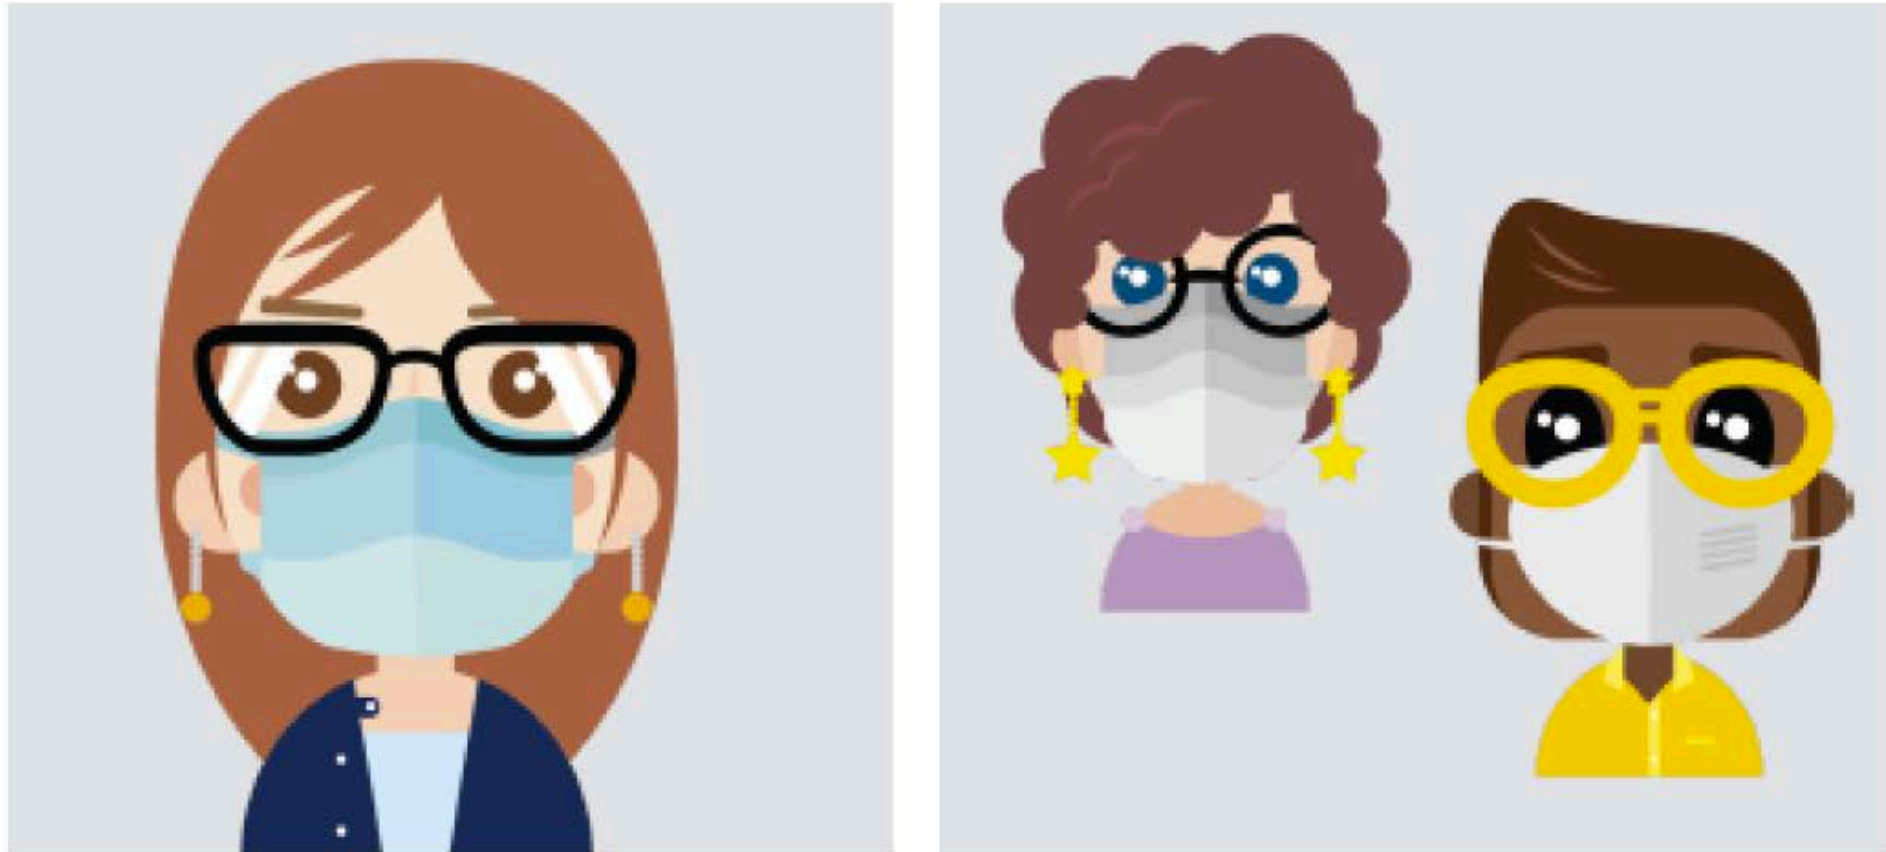

I will wash my hands after coughing or sneezing.

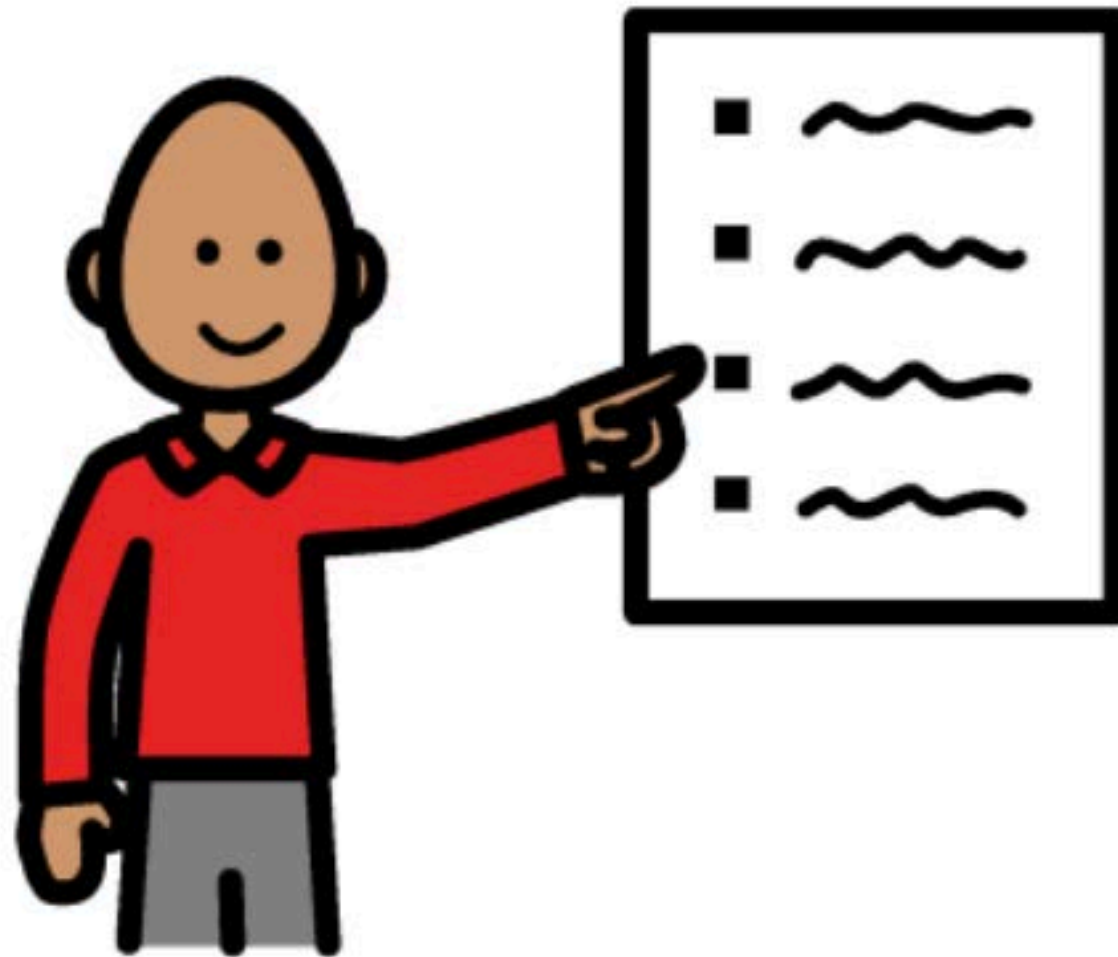

We will follow these steps so that we can stop germs from spreading.

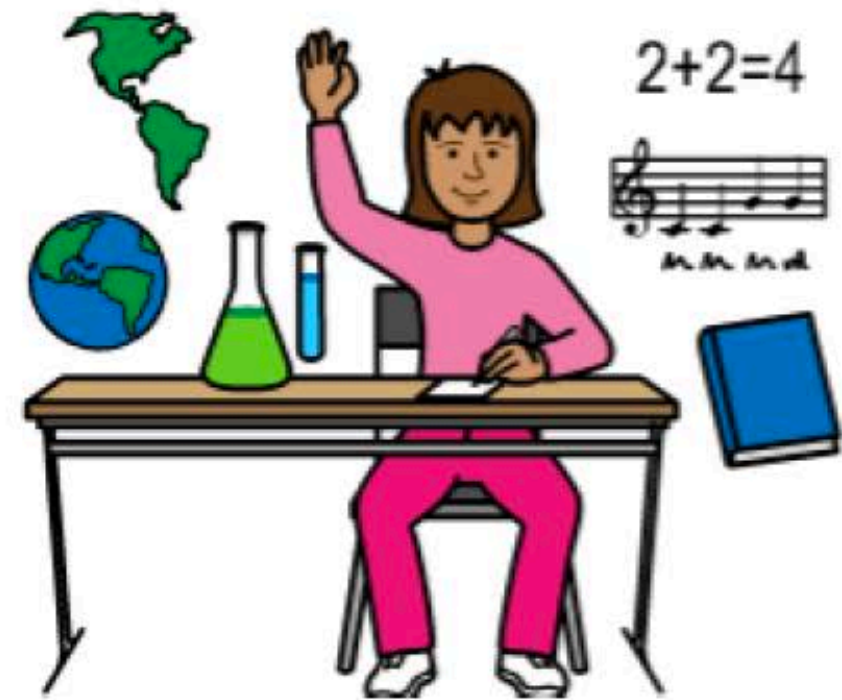

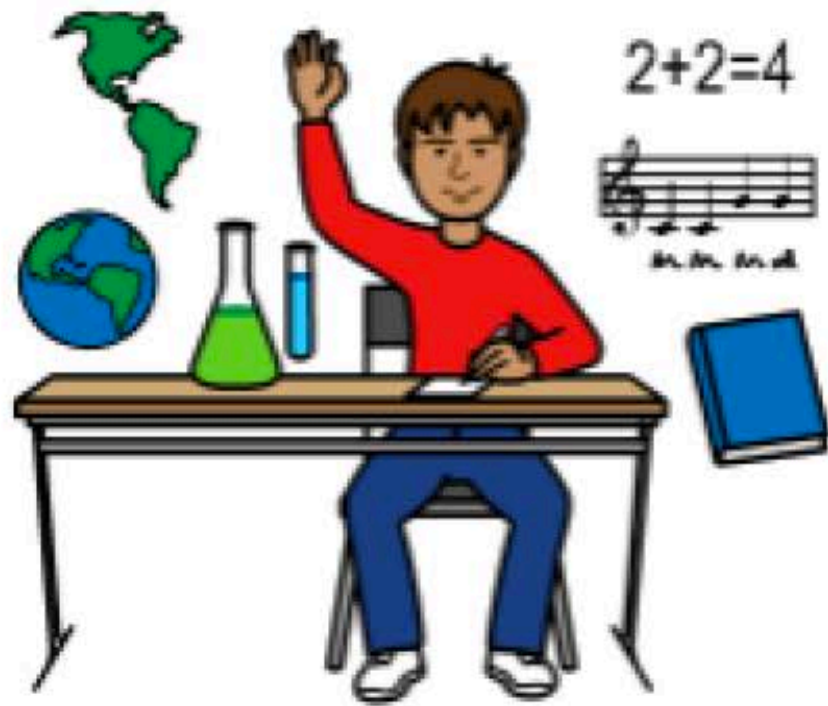

Sometimes I will see adults in school wearing masks, I will still be able to see their eyes.

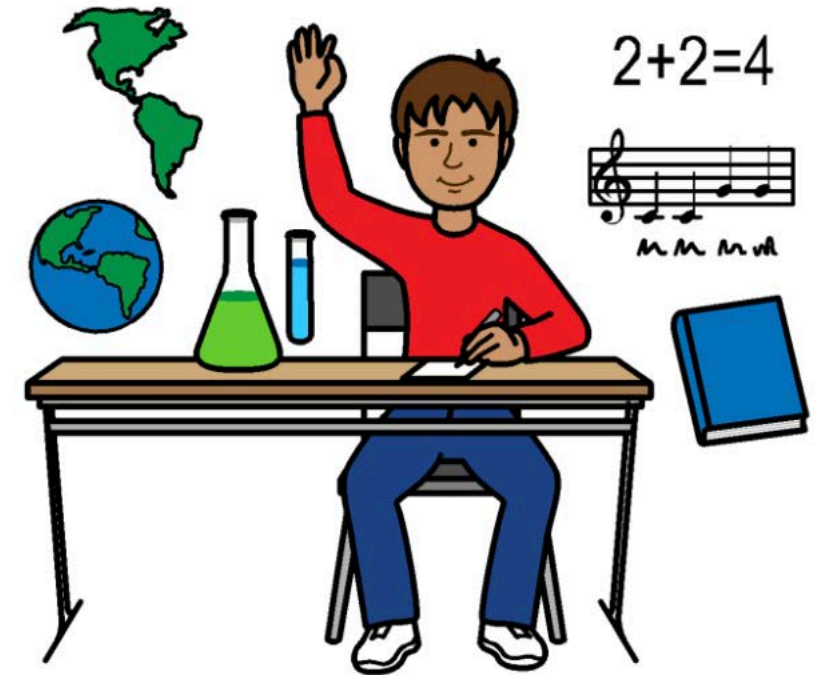

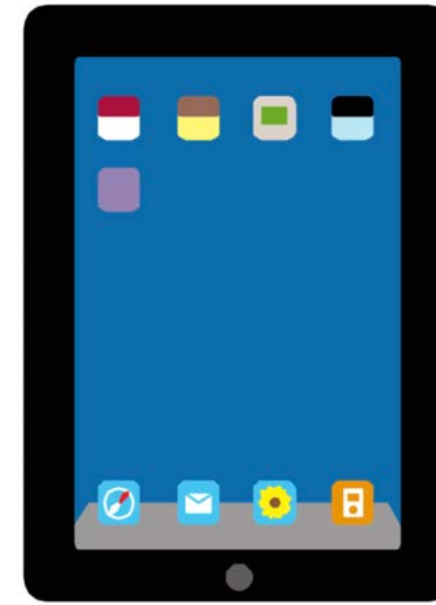

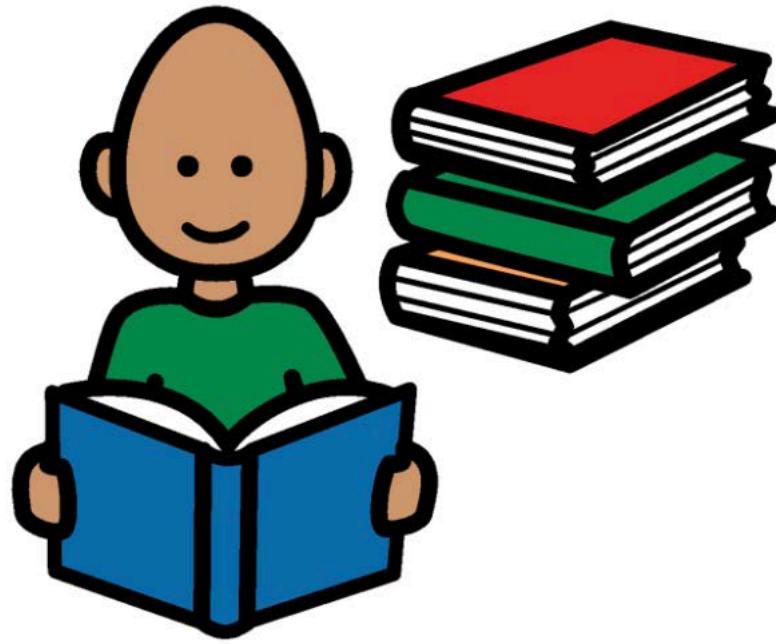

They are wearing masks to help keep everyone at school healthy and safe.

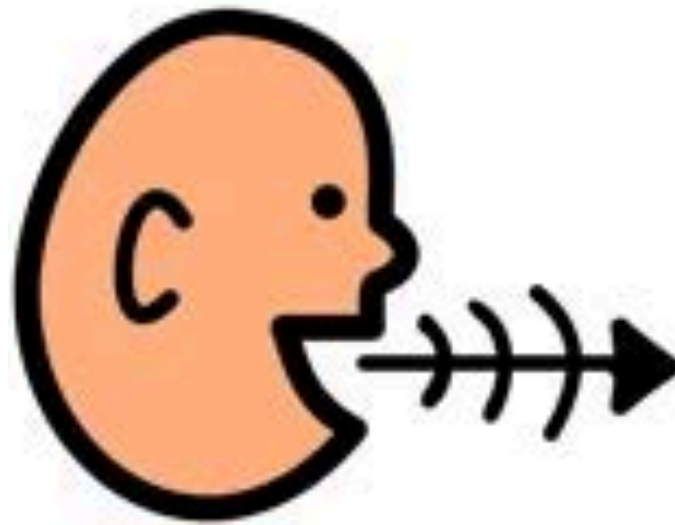

*To keep me safe in school I will follow the rules
and the code of conduct.*

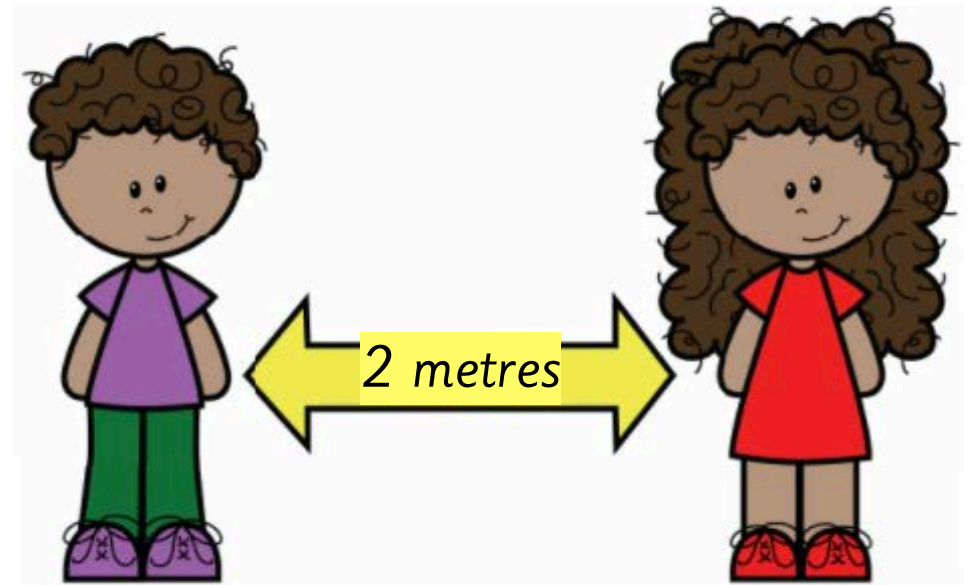

It will be good to be learning in school.

Some of the things we like to do at school may not be possible but some will.

Some of this might make you feel worried or nervous. You can talk to your family and teachers, the can help you.

You will get picked up at the end of the day in the same place and can go home. When going home I still need to keep apart from other people to make sure we are following social distancing rules.
