

Vocabulary

cast	an object made by shaping tissue, tape or paper around another
mould	a hollow container used to give an object shape
construct	build or make
embellish	decorate; to make more attractive
spiral	a winding curve
inner	inside/internal
outer	outside/external

What media and tools we'll need:

We are going to be making a life-size shoe. We will wrap a shoe in tissue paper and secure with masking tape. Then, we will cover it with brown gummed-paper.

Coiling is a technique used in pottery to create shapes and designs. The potter usually rolls clay and then will twist, overlap, plait or pinch the clay until the desired pattern is made.
