

Vocabulary

stencil	A thin sheet of card, plastic or metal with a pattern or letters cut out, used to produce the cut out design by applying paint or ink through the holes.
overlapping	Putting the objects in a drawing, painting or print on top of each other to create the illusion of a 3D image.
tone	The lightness or darkness of a colour.
impression	Pressing a design into clay.
multiples	Recreating lots of the same image.
translucent	Allowing some light to pass through.
transparent	Allowing all light to pass through like a window.
opaque	Allowing no light to pass through.
ink up	Applying ink onto a printing block for making a print.

Clay slab relief prints with tissue trapped between printed layers.
