Characteristics of Effective Learning	<p><b>Playing and exploring:</b> Children investigate and experience things and 'have a go'. Children who actively participate in their own play develop a larger store of information and experiences to draw on which positively supports their learning</p> <p><b>Active learning:</b> Children concentrate and keep on trying if they encounter difficulties. They are proud of their achievements. For children to develop into self-regulating, lifelong learners they are required to take ownership, accept challenges and learn persistence</p> <p><b>Creating and thinking critically:</b> Children develop their own ideas and make links between these ideas. They think flexibly and rationally, drawing on previous experiences which help them to solve problems and reach conclusions.</p>
