

WellComm

A Speech and Language Toolkit for Screening and Intervention in the Early Years: Revised Edition.

What is it:

At The Beacon CE Primary School, we have been using WellComm in our Early Years Foundation Stage, for the past 6 years. WellComm is a speech and language toolkit that is designed to assess children's speech and language skills. Not how they talk but the language they use and the language and grammar they understand. The WellComm Toolkit can be used from birth to 6 years old and we used it in our 2-3 Room, 3-4 Nursery and Reception classes.

Impact:

We have invested in WellComm because it is a systematic Speech and Language tool. Through using the assessments, you can pin point where individual children's needs lie. Using this information, staff can personalise their teaching to meet individual children's needs. All our EYFS have received WellComm training and strategies can be used for individual children, small groups but also whole class teaching.
